Valls, Arrested When He Sought His Property, Is Reported Missing.

Laredo, Tex., March 25.—Aurelio Valls, American citizen, has disappeared from Nuevo Laredo, where he was reported to have been arrested Monday by Mexican federalists. The Nuevo Laredo authorities say they do not hold Valls, but further questioning elicited the statement that one Alfonso Salas, detained for reasons made public, had been sent to Monterrey for trial.

Believing that Salas is her son, Valls' mother left here today for Monterrey.

Valls drove to Nuevo Laredo Monday where his horse and buggy disappeared, after he had left the animal tied. He traced his property to a point near the federal fortifications, where he was arrested. He has not been seen since.

American consul Garrett at Nuevo Laredo is investigating.

## HEALTH AND STRENGTH REGAINED

By Splendid Tonic Influence

The Season's Difference Affects All Manner of Life and the Human Body Needs Help Most of All

A TRUTHFUL MEDICINE.

Not one particle of anything other than the native roots and simple preservatives are used in the preparation of S. S. S. It has survived many years of the most searching tests, and never in its forty and more years of usefulness has it ever been found otherwise than a purely beneficial medicine, helpful to the young, invigorating to those advanced in years, and containing just the amount of gentle exhilaration so much required by most women.

S. S. S. is strongly recommended in almost every community in America, and is sold in most drug, department and general stores.

But by all means avoid substitutes. Do not permit anyone to palm off something they claim to be "Just as good." Ask for S. S. S., insist upon getting it, and you will thus avoid grievous disappointment. S. S. S. is prepared only in the Laboratory of the Swift Specific Co., 408 Swift Bldg., Atlanta, Ga. And for a special book on Catarrh or Rheumatism or skin diseases or blood troubles, write to our Medical Dept., who will be glad to give you special and personal directions in the use of S. S. S.

## THE GREAT QUESTION OF HEALTH ANSWERED

BLOOD IMPURITIES BY NAME.

We are prone to think too much of names. When the muscles ache and the sciatic nerve hurts, and there are general pains the word Rheumatism leads one to forget that it is the blood as much as the nerves that are responsible for these pains. And S. S. S. proves this by its tonic influence in the blood. When the mind and body are jaded and utterly cast down with malarial infection, it is the blood that contains this poisonous influence. Here again S. S. S. asserts its tonic influence. And if from a sluggish blood stream, there are skin eruptions, blood risings, indolent abscesses and other evidences of accumulated body wastes, the medicinal action of S. S. S. gives ocular evidence of its medicinal influence.

## RETAINS ITS INDIVIDUALITY.

The wonderful tonic influence of this splendid blood purifier is traced to its ability to retain its individuality. It is acceptable to the weakest stomach, and yet it is not changed or converted or excreted until it has exercised its medicinal dominance throughout the blood circulation.

This is important. Some drugs have this same effect, but they remain in the system, a fruitful source of irritation and danger. S. S. S. does not remain in the system, for after having served the purpose as a medicinal action, it is excreted with the waste products, and this emunctory process goes on every second of time.

## OUR WINTER INACTIVITY.

During the confined months of the winter season there are many of us who are less active. The liver is sluggish, the skin is dormant, the kidneys are overworked, the lungs are not called upon to breathe with sufficient depth and energy to satisfy the demands of the tissues for their needed amount of oxygen. And thus the body needs help, must have it. Experience comes to our relief, and what better guide could we select than the example of those who annually know exactly what to do—use S. S. S.
